WHY CARGOPORT?

- 1 Value Focused:** Offering quality and productivity at a competitive investment.
- 2 Efficiency:** Fiberglass cab roof wind fairing allows for maximum cab height for allowing passthrough from cab to cargo area.
- 3 Clean Exterior:** One piece smooth sidewalls provides maximum surface area and ease of installing graphics.
- 4 Low Step-In Height:** Reduces fatigue and injuries.
- 5 Customizable:** Multiple cargo control, safety, and productivity options available turn-key.
- 6 Flexible:** Available with multiple side and rear door configurations to best match your needs.
- 7 Replacement Parts:** Factory parts readily available to reduce down time.

WHY WORKPORT?

- 1 Value:** Quality design and workmanship delivered timely.
- 2 Flexibility:** Body compatible with most cab and cutaway chassis manufacturers.
- 3 Customizable:** Available with multiple safety, storage, lighting, and productivity options.
- 4 Work Ready:** Available from factory with optional exterior compartment shelving, bin storage, and drawer packages.
- 5 Roof Access:** Roof storage and access options available.
- 6 Towing:** Multiple rear bumper and hitch options available to suit your towing needs.
- 7 Convenient Accessibility:** Optional key fob activated master locking system available for all exterior body doors.
- 8 Replacement Parts:** Factory parts readily available to minimize down time.

ROCKPORT WORKPORT

ENCLOSED SERVICE BODY; RUGGED INSIDE AND OUT

Your mobile workshop with stand-up interior height, heavy-duty door hinges, integrated rear access ladders, and exterior compartments. Customize it to fit your needs, with optional compartment power locks to secure your equipment at the push of a button.

ROCKPORT ROCKPORT

QUALITY OPTIONS COME STANDARD

Every Rockport body is engineered with industry-leading innovations, raising the bar with features like Aluminum or FRP construction, Aluminum or Translucent roofing, and a range of durable flooring options — including Laminated Hardwood, Extruded Aluminum, Marine-Grade Plywood, and Steel or Aluminum Treadplate overlays.

**FREIGHT
DELIVERY**

- **Rocktop**
(Walkthrough Wind Fairing)
- **Liftgates or Ramps**
- **E-Track & Protective Scuff Liner**
- **Sidewall Loading Doors**
- **Swing Rear Doors**
- **Back Up Camera & Back Up Sonar** *(Regular, 360)*

A technical line drawing of a truck from a side profile. The truck has a cab and a rectangular cargo box. Dimension A is the wheelbase (distance between axles). Dimension B is the wheel offset (distance from front axle to front of cargo box). Dimension C is the total wheel span (distance between the front and rear axles). Dimension D is the cargo box length. Dimension E is the cargo box height. The cargo box is divided into three vertical sections by dashed lines.
